5.0 Fire Fighting Measures

- **5.1 Flashpoint** 28°C
- 5.2 Flammability Limit 6.5 (Lower)

5.3 Extinguishing Media

Foam, carbon dioxide, dry chemical.

5.4 Hazardous Composition Products

May form toxic materials such as Carbon Monoxide and Carbon Dioxide.

5.5 Special Firefighting Procedures

Call Fire Service and tell them of location and nature of hazard . Water or Foam may cause frothing that can be violent, especially if sprayed into containers of hot burning liquid. Self contained breathing apparatus with full face piece should be used.

Closed containers can be kept cool by water spray .

Make sure of adequate supplies of extinguishing material available .

5.6 Unusual fire and Explosion Hazards

Vapours are heavier than air and may travel along ground and move by ventilation and ignite at a point far from the source. Sumps and drains should be checked for signs of accumulation .

5.7 Firefighting Personal Protective Equipment

Full protective clothing and self contained breathing apparatus . Water rinse shower available .
